

Welcome,

I encourage you to prepare a disaster action plan for your pets and home. It is not possible for See Spot Run Petsitting Service to get all the pets in our care to safety during a disaster. With your plan in place, we, See Spot Run Petsitting Service, will do our best to call the person you have chosen to implement your plan. It is best to have that person on alert each time you are away. Please be aware that the office of See Spot Run Petsitting Service is in an evacuation area and we do evacuate. You may not be in an evacuation area and will only need the person you chose in your plan, to care for your pets until you get there.

See Spot Run Petsitting Service will resume service for your pets and home when officials have announced it is safe to travel and we can safely get to and enter your home.

When you are done with your plan, please send me an email to let me know who will implement your plan, and their phone numbers. Please understand we require this information prior to providing pet care.

There is information online to help you make your plan. One web site is: www.redcross.org/prepare/disaster/hurricane

Thank you.
